

November 3, 2023

In the next week or so, we will be starting the parking lot project. We will be resurfacing the parking lot, reworking the drainage, and adding new lighting. The first phase will include replacing the pipe under the main entrance on Hatchell Lane by the church sign and making it wider. This could take two weeks to complete. After the Hatchell Lane entrance is finished, we will start on the entrance in front of the Faith Formation Center. This should only take about 7 to 10 days. At the same time, we will be working on the main parking lot in front of the church replacing the sewer line and adding the parking lot lighting pole bases. This may take a couple of weeks. During this time, we will also be digging in the parking lot but will allow parking on the weekend only for Saturday and Sunday Masses with caution. During the week, parking will only be available at the North entrance off Maple Drive. If the area is barricaded with tape, please go around the area. We will update our website daily.
